CAPABILITY STATEMENT

INTELLIGENCE-LED PHYSICAL SECURITY

Precision. Accountability. Protection.

Est. 2014 | FL License B-1500005 | BBB Accredited A+ Since 2016

Florida Statewide | Headquartered on the Space Coast (Merritt Island) | 321-300-1939 | contact@tess.global | tess.global

COMPANY OVERVIEW

- TESS Global | Tactful Elite Security Solutions is a Florida-licensed private security agency providing intelligence-led physical security services throughout Brevard County, Central Florida, and statewide across Florida.
- Founded in 2014 and headquartered on Florida's Space Coast in Merritt Island, TESS combines trained security personnel with structured security planning, protective intelligence, risk assessment, access control, emergency preparedness, and operational oversight to develop security solutions around each client's specific needs and risk environment.
- While most security providers simply deploy bodies, we deploy systems. Our approach is built around proactive threat prevention, accountability, documented operations, and security programs designed for the environment they protect.

CORE CAPABILITIES

- **Uniformed Security Officers:** Professional security personnel providing visible deterrence, site protection, access support, incident response, and documented security operations.
- **Armed Security Services:** Armed protective personnel for elevated-risk environments, sensitive assets, and assignments requiring an enhanced security posture.
- **Fire Watch Services:** Dedicated coverage for fire-system outages, impairments, construction, and other required conditions with documented patrol and fire-watch logging.
- **Access Control, Credential Verification & Gatehouse Security:** Controlled-entry operations including visitor and vendor verification, credential screening, access logging, and gatehouse operations.
- **Event & Venue Security:** Access control, crowd management, protective presence, incident response, and coordinated security for events and venues.
- **Executive Protection & Private Security:** Discreet, risk-based protective services for executives, principals, families, performers, and private clients.
- **Workplace Violence & Hostile Termination Security:** Planned protective coverage for workplace threats, high-risk terminations, and elevated-risk personnel situations.
- **Construction Site Security:** Protection of construction projects, equipment, materials, contractors, controlled access points, and after-hours operations.
- **Aerospace & Critical Infrastructure Security:** Intelligence-led security supporting sensitive facilities, aerospace operations, critical assets, and mission-critical environments.
- **Hurricane, Emergency & Disaster Response:** Pre-event, emergency, and recovery security protecting personnel, property, assets, and access during disruptive conditions.

- **Continuity of Operations (COOP) & Emergency Preparedness:** Planning and operational support designed to maintain critical functions and security operations during disruption.
- **Protective Intelligence & RVTA:** Intelligence-informed assessment of threats, vulnerabilities, exposure, and operational risk to identify protective priorities and actionable mitigation measures.
- **Security Program Development:** Design of integrated security programs incorporating personnel, procedures, access control, post orders, reporting, and emergency preparedness.
- **Aerial / Drone Security:** Mission-based aerial support for situational awareness, overwatch, inspections, documentation, and security operations. FAA Part 107 operations provided through appropriately certified personnel as required.

MARKETS WE SERVE

• Communities	• Commercial & Property Management	• Construction
• Hospitality	• Events & Venues	• Executive & Private Clients
• Aerospace & Critical Infrastructure	• Emergency & Disaster Response	• Aerial / Drone Security

WHY TESS GLOBAL

- **Intelligence-Led Physical Security:** Security is built around the client's actual risk environment rather than relying solely on reactive guard presence.
- **Established Since 2014:** More than a decade of continuous security operations and long-term client relationships.
- **24/7 Dispatch:** Direct access for active operations and time-sensitive security requirements.
- **Professional Qualifications:** A professionally trained workforce supported by state licensing, instructor-level expertise, specialized protective-security training, and continuing professional development.
- **Mission-Matched Personnel:** Personnel are selected and assigned based on the requirements, risk profile, and operating environment of each engagement.
- **Operational Accountability:** Site-specific post orders, documented activity, incident reporting, supervisory oversight, and defined client communication.
- **Proven Scalability:** Experience supporting individual protective assignments, large properties, and high-density events exceeding 7,000 attendees.
- **Independent Recognition:** BBB A+ Accredited since 2016 and recognized as a Top 3 Space Coast Security Guard Service by Business Rate in 2025 and 2026.

SELECTED EXPERIENCE

- **King Center for the Performing Arts:** 9+ years supporting venue operations for 140+ shows annually and approximately 1,200 patrons per event.
- **Palm Bay Christmas Extravaganza:** Security and access-control support since 2018 for high-volume public attendance.
- **Thunder on Cocoa Beach:** Security of event infrastructure, staging areas, and restricted zones since 2020.
- **Marina & Waterfront Security:** 5+ years of contracted waterfront security including dock patrol, slip access control, vessel monitoring, and after-hours perimeter security.
- **Federal Subcontracting:** Armed federal facility security, X-ray screening, and interior patrol experience supporting the U.S. Securities and Exchange Commission Miami Branch as a subcontractor.
- **Executive Protection:** Protective operations experience supporting Fortune 500 organizations, executives, private clients, and maritime assignments.

CREDENTIALS & PROFESSIONAL QUALIFICATIONS

TESS Global maintains a professionally trained security workforce supported by state licensing, instructor-level expertise, specialized protective-security training, and continuing professional development. Team qualifications vary by assignment and include Florida Class D and Class G security licensing, Florida security instructor credentials, executive protection and protective operations training, defensive tactics, active-threat preparedness, crowd management, emergency response, CPR/AED, Stop the Bleed, TCCC training, and other specialized disciplines.

Personnel are selected and assigned based on the requirements, risk profile, and operating environment of each engagement.

OUR APPROACH

- **Assess:** Understand the client's environment, operational requirements, threats, vulnerabilities, and exposure.
- **Design:** Develop a security posture using the appropriate combination of personnel, access control, procedures, reporting, preparedness, and specialized capabilities.
- **Deploy:** Assign personnel and resources matched to the mission, location, risk profile, and client requirements.
- **Document & Improve:** Maintain operational accountability through activity reporting, incident documentation, supervisory oversight, and continued program refinement.
